Search Tips

Quick Search Options

The Quick Search Option is set up to search the following fields:

- Keyword
- Title
- Caption/description
- File Name
- Record Name
The Portal Quick (red arrow figure above) and Advanced (green arrow figure above and next figure) Searches use Boolean functions to operate (see IODP JRSO Portal User Guide for more information about search functions).

The Portal Advanced Search (green arrow) allows a user to search specific fields listed. It may take a few seconds for the circle/plus (green arrow) to appear or click in the Quick Search field.
The figure to the right shows 576 results using the Advanced Search feature with the keyword *ship photo*.

To remove the search, click on the *deselect all filters* text.

### BOOLEAN SEARCH FUNCTIONS

*Ship Photo* finds ‘ship’ and ‘photo’ as separate terms (default)
- *photo* (minus symbol then photo) finds anything except ‘photo’

*Ship || Photo* finds ‘ship’ or ‘photo’ (ship + shift + backslash key twice + photo)

“*Ship photo*” finds the exact phrase ‘ship photo’ (or use the Advanced Search)

*Ship -photo (ship minus photo)* finds ‘ship’ but not ‘photo’

### EXAMPLES

Examples of the above terms used in the Quick Search box for the PR Images catalog (as of May 2019):

- **Ship photo** in the Quick Search Box results in 3920 files.
- “**Ship photo**” results in 1754 files.
- “**Ship photo** –exterior” results in 1657 files.
- “**Ship photo** –exterior wildlife” (this search finds ship photos without the word ‘exterior’ and with the word ‘wildlife’) results in 10 files.
- **Ship || photo** (‘or’ search) results in 22750 files.
- **Ship || photo –wildlife** results in 22404 files
- **Ship wildlife sunset** results in 4 files (searches for all three terms in one of 5 fields).
PR IMAGES CATALOG KEYWORDS

This document contains terms used as keywords in the digital asset management system. The terms are separated into frequently and infrequently used keywords. The MS Word Navigation panel will help you scroll through the alphabet in search of a word or try the MS Word search function.

OVERARCHING BOOLEAN KEYWORDS

1. If you want photos with people in them use the term *human* (term is added to photo if any part of a person is visible in the photo) vs *empty* (no people or body parts in photo)
2. Ship (use quotes for terms of 2+ words to get exact matches)
   a. “Ship Exterior” (any photo of the exterior of the ship). The following terms indicate specific parts of the ship:
      i. Aft
      ii. Anchor
      iii. Bow
      iv. Bridge
      v. Catwalk
      vi. Fantail
      vii. Gangway
      viii. Helideck
      ix. Lifeboat
      x. Moonpool
      xi. Pipe racker
      xii. Rig floor (aka drill floor)
      xiii. Ship’s Bell
      xiv. Shucks
      xv. Thruster
   b. “Ship Interior” (any photo of the interior of the ship)
      i. Labs (Chemistry, Core, Underway, Paleomagnetics, etc.)
      ii. Offices
      iii. Galley/Mess Hall
      iv. Bridge
      v. Core Tech Shop
   c. Neither (ship is **not** in the photo)
   d. “Ship Photo” (a photo of the entire or at least two-thirds of the ship)
3. Type of people:
   a. Assistant Lab Officer (aka ALO, IODP Staff)
   b. Entier (aka catering staff)
   c. IODP Staff (ALO, LO, Operations Superintendent, Technicians)
   d. Lab Officer (IODP Staff)
   e. Operations Superintendent (IODP Staff)
   f. Scientist
   g. Siem (Exp 341 and after) or Transocean (Exp 340 and before) (ship’s crew)
   h. Staff Scientist (Expedition Project Manager)
   i. Technician (informal term for IODP technicians)
4. Type of Photo:
   a. Friends and Family (use F&F) posted on IODP website; if taken by IODP photographer, the photos are higher resolution than the photos on the IODP Website.
   b. Retouched (formerly edited; color corrected, enhanced contrast etc. not used for F&F)
   c. Raw (unmodified photos, e.g., 3FR, CR2, FFF, NEF, DNG, etc.; not visible to guests)
   d. Manipulated (heavily altered, combined, or staged photos)

   **Note:** Both 03 Friends and Family photos and 04 Additional Expedition Images contain the keyword retouched. To find retouched photos that are not part of Friends and Family type retouched-F&F (minus F&F) in the quick search bar.

5. By name. If you know a person’s name, you can search by name. Per EU guidelines, Siem personnel names are not included in keywords for expeditions that occurred in the last year or two (as of May 2020)

**KEYWORDS USED IN ALL PHOTOS TAKEN DURING EXPEDITIONS**

- ^Exp xxx, name (e.g., Exp 350, Izu Bonin Mariana: Reararc)
- ^Integrated Ocean Drilling Program (Pre Exp 349)
- ^International Ocean Discovery Program (Exp 349 and later)
- ^JOIDES Resolution
- F&F, retouched, raw, or raw category (added to keyword list to differentiate between the three major photo types; raw category is for retouched photos located under 08 Data-not visible to guests—usually for older photos)

^These keywords have value as metadata traveling with the photo when downloaded but not as search terms in Cumulus, unless you want to know how many photos have been taken during an expedition or during Integrated Ocean Drilling Program or International Ocean Discovery Program.

**OLDER SCIENTIFIC OCEAN DRILLING PROGRAM NAMES**

There are a limited number of photos for these programs in PR Images as digital photos were not available.

- Deep Sea Drilling Program (DSDP)
- Ocean Drilling Program (ODP)

**COMMONLY USED KEYWORDS FOR PR IMAGES CATALOG**

Use the MS Word View > Sidebar > Navigation to move through the document easily. Search terms were tested using the quick search with Standard User permissions. From the end of 2018 to March of 2019. Note, numbers change on a regular basis as photos are added frequently. The numbers next to keywords give a general idea of how many files are likely to come up using a search term.
